SUMMARY

With over 5 years of experience, I'm a passionate developer who excels at solving real-world problems through simple, user-centric mobile apps and backend systems. I tackle complex challenges by designing intuitive, easy-to-use apps for iOS and Android that prioritize user needs. On the backend, I create reliable, streamlined systems that ensure smooth performance and data flow. My focus is on crafting practical, effective solutions with clean code, always aiming to deliver real value for users and businesses alike.
